

LAUNCHING **ConceptZee.ai**

Unlock powerful data insights with a simple question, in any language

Introducing our latest
AI-based Reporting Tool for all your
MIS Reporting needs in an ERP

FEATURES

- Just ask, don't query, forget traversing through a maze of query screens and selection filters and check boxes etc.,
- Effortless integration with all your Custom ERP Databases as a SAAS module that can be hosted on the Cloud or 'In-premise'.
- Go-Live within a week's time and get the basics working, the LLMs get trained as you start using it there-after continually.
- Latest Generative AI based LLMs, specifically trained on your Data schema and some synthetic data.
- Your Data is never exposed as we do not use the data, but it's schema only, for the LLMs to get trained
